NewBusiness:

>someone in SJOClub approached Addi about having better quality projector for slideshow; and Board was asked to consider options.

>Prices and equipment were discussed; with Board members deciding the biggest problem may be room being too bright. Board will experiment wit lowering shades and turning off the farther-back lighting @tomorrow night's meeting.

> it was also suggested that Board ask Jeb to a 'training' on the AV equipment.

>Addi was told again by friends who felt a bit 'excluded'@meetings;and Board was asked for ideas—though Addi suggested a non-Board-Member might be asked to volunteer as a Greeter; someone who could stand in entryway and greet, socialize introduce people, look for 'connections.'...The call will be put out@tomorrow's meeting for September's meeting.

>Dennis reported that a SJOC Member took one of the easy-ups from July picnic, to make a repair; but he hasn't heard from that person since. Addi will ask@tomorrow's meeting who might be there or might know who has it.

As there was no further business, Dennis moved to adjourn @4:53, Eugenie seconded.
